
GATED coupon WoodWorld (haiku, recipe=distinct) over (T, N): recognition & solve rate
(gaussian-pooled bw=1, 1 rep/cell; goal = collect all N distinct kinds; axe = 2 DISTINCT resources; kinds GATED (locked containers, directed axe→key→open))
RECOGNITION P(built axe | held ≥2 sticks) = 0.72
SOLVE RATE P(collected all N kinds) = 0.20
no held-sticks episode
number of distinct wood kinds N
tree-resource types T
